

SOEMA®*Handcrafted Technology***LOCKERS**
SFERA CABINET

SFERA wardrobe series is the newest line proposed by SOEMA for those customers who need to furnish their changing room paying more attention to design and aesthetics.

The major feature that distinguishes them from the others models is the aesthetic linearity of the product given that the profiles, in anodized aluminium, are not visible from the outside.

The doors are made entirely of HPL (12mm) or glass (6+6mm).

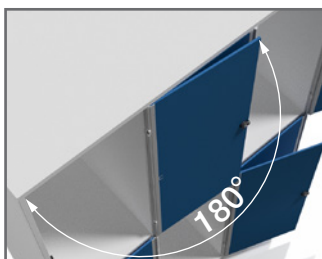

Feet are made of aluminum 100 or 200mm high, adjustable in height or 200mm high with base and connection bracket.

Both the internal part and the structure are made with a High Pressured Laminate panel, easily combined with all types of dividing boxes.

The glass door is available in all RAL colours. Numbering of the doors is laser engraved on a stainless steel plate.

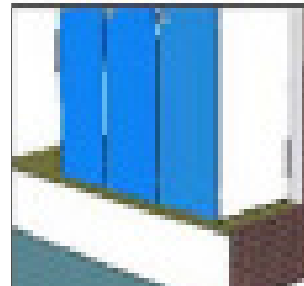

Gaskets are housed on the rebate profiles along the entire length of the doors which act as shock absorbers.

The cabinets can be made in groups of 1/2/3 columns, or in a continuous solution without interruptions, which can be assembled on site (system modular) chosen by the works management.

Optional:

- Base with frame for fixing wardrobe to masonry supports.

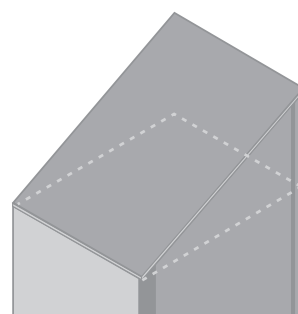

- Bench with structure in anodized T60/60 aluminum profiles and seat in 14mm HPL laminate, color of your choice.

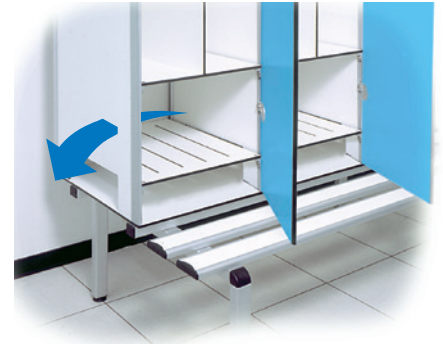

- Feet in black ABS of 65mm height

- Sloped Roof

- Ventilation system

- Door lock

Butterfly with padlock

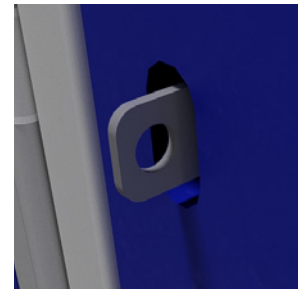

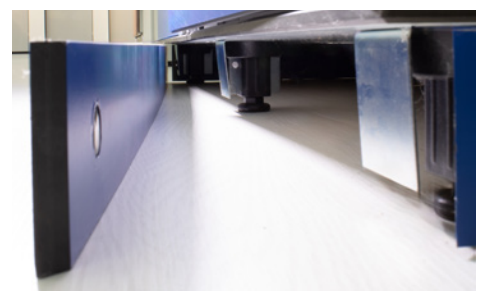

Plate with padlock

- Slits on the door

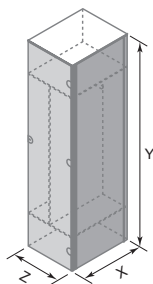

Slits at the top of each door

- 8mm white HPL foot cover
